

Apartament amplifiers ATP400 series

Models for terrestrial signals, adapted to the 1st and 2nd Digital Dividend.

Ideal for extending the household network

Models adapted to the 1st and 2nd Digital Dividend

Gain adjustment

Main features

- Models adapted to the 1st and 2nd Digital Dividend.
- Terrestrial signals.
- Gain adjustment potentiometers.

Model	Ref. / EAN code	ATP400 series	
ATP400-C69	3594 / 8435136435945	Frequencies MHz	47 - 862
ATP400-C60	3595 / 8435136435952		47 - 790
ATP400-C48	3596 / 8435136435969		47 - 694
Input			1
Output			4
Gain		dB	>22
Gain adjustment		dB	>15
Output level		dB μ V	103 IMD3 -60dB (DIN 45004B)
Noise figure		dB	<4
Mains supply voltage		VAC	100 - 240
Consumption		W	<3
Dimensions		mm	135 x 70 x 30

Installation example

Quick Fix & Release bracket
