

FO75W1xxA

75 Ohm SAT Connection Cables

APPLICATION

The Fenger FO75W1xxA series comprises premium 75 Ohm coaxial SAT connection cables designed for reliable digital signal transmission in both residential and professional installations.

With advanced Class A triple shielding, these cables provide outstanding protection against EMI/RFI interference, ensuring stable signal transmission, reduced noise, and crystal-clear picture quality for satellite TV systems. The Quick F Male to Quick F Male connectors enable fast, secure installation for dependable long-term performance.

FEATURES & BENEFITS

- *Triple Shielding – Class A (>85 dB)*
- *CCS (Copper Clad Steel) conductor*
- *96 Aluminium wire braiding (>87%)*
- *Durable PVC jacket (Ø 5.5 mm)*
- *Quick F Male to Quick F Male connectors*
- *Optimized for Satellite TV systems*
- *Individually packed in polybag*

High-Quality Signal Transmission with Class A Shielding
